

Micro Separator

Diesel Performance Products

Tank Conditioning Unit

Keeps your fuel tank in optimum operation condition!!

Environmental friendly and sustainable solution to cleanse (diesel) fuel.

Water and bacterial growth cause fuel disintegration and formation of sludge in (diesel) storage tanks. This results in less than optimum operating conditions, potential downtime and damage to equipment.

The Micro-Separator Tank Conditioning Unit keeps your storage tank permanent in good condition by treating and cleansing the fuel at preset intervals.

Properties:

- ✓ Stand-alone unit
- ✓ Built-in Micro-Separator
- ✓ Built-in Fuel-Stabiliser fuel conditioner (stops bacterial growth)
- ✓ Built-in spin on filter 10 micron
- ✓ PLC controlled and monitored
- ✓ Leakage detection with alarm
- ✓ Filter load detection
- ✓ Dirt compartment detection with alarm
- ✓ Available for storage tanks up to 100.000 litres
- ✓ Splash watertight cabinet

Optional:

GSM module for automatic malfunction alert

Dimensions TCU 25 en TCU 50
(for tanks up to 25.000 and 50.000 litres)
LXWXH: 600X400X600 mm.
